BBA

General Subjects

Vol. 1116, 1992

Cumulative Contents

Regular Papers

Density separation of human red blood cells on self forming Percoll[R] gradients: correlation with cell age
H.U. Lutz, P. Stammler, S. Fasler, M. Ingold and J. Fehr (Switzerland) 1

Antioxidative activity of synthetic melanins. Cardiolipin liposome model
M. Porębska-Budny, N.L. Sakina, K.B. Stępień, A.E. Dontsov and T. Wilczok (Poland, USSR) 11

Effect of phenobarbital and 3-methylcholanthrene treatment on NADPH- and NADH-dependent production of reactive oxygen intermediates by rat liver nuclei
S. Puntarulo and A.I. Cederbaum (USA, Argentina) 17

A novel derivative of the prosthetic group heme d_1: *S*-methylporphyrindione d_1
R. Timkovich and R.T. Carlin (USA) 24

Enzymatic synthesis of *S*-aminoethyl-L-cysteine from pantetheine
G. Pitari, G. Maurizi, V. Flati, C.L. Ursini, L. Spera, S. Duprè and D. Cavallini (Italy) 27

Isolation and characterization of a blue fluorophore from human eye lens crystallins: In vitro formation from Maillard reaction with ascorbate and ribose
R.H. Nagaraj and V.M. Monnier (USA) 34

Bicarbonate and other buffer systems can enhance the rate of H^+ diffusion through mucus in vitro
M.A. Desai and P.M. Vadgama (UK) 43

Carbonyl reductase from human testis: purification and comparison with carbonyl reductase from human brain and rat testis
N. Inazu, B. Ruepp, H. Wirth and B. Wermuth (Switzerland) 50

Human osteoclastomas contain multiple forms of cathepsin B
A.E. Page, M.J. Warburton, T.J. Chambers, J.A.S. Pringle and A.R. Hayman (UK) 57

Formation of β-galactosyl compounds of pyridoxine in growing culture of *Sporobolomyces singularis*
Y. Suzuki and K. Uchida (Japan) 67

Serological study using α-*N*-acetylgalactosaminidase from *Acremonium* sp.
K. Izumi, K. Yamamoto, T. Tochikura and Y. Hirabayashi (Japan) 72

Quinone induced stimulation of hexose monophosphate shunt activity in the guinea pig lens: role of zeta-crystallin
P. Rao and J.S. Zigler, Jr. (USA) 75

Regular Papers

Variation in amino acid transport along the rabbit small intestine. Mutual jejunal carriers of leucine and lysine
L.K. Munck and B.G. Munck (Denmark) 83

The rabbit jejunal 'imino carrier' and the ileal 'imino acid carrier' describe the same epithelial function
L.K. Munck and B.G. Munck (Denmark) 91

A rapid and simple assay method for UDP-glucose:ceramide glucosyltransferase
N. Matsuo, T. Nomura and G. Imokawa (Japan) 97

Properties of plasma membrane-induced amylase release from rat parotid secretory granules: effects of Ca^{2+} and Mg-ATP
M. Mizuno, Y. Kameyama, K. Yashiro, S.O. Shin and Y. Yokota (Japan) 104

The major Kurloff cell glycoproteins: lectin affinities, glycosidase susceptibilities and relationship with the sialylated acid phosphatases of the Kurloff body
G. Landemore, N. Oulhaj, S.-E. Letaïef and J. Izard (France) 112

Purification of senescence marker protein-30 (SMP30) and its androgen-independent decrease with age in the rat liver
T. Fujita, K. Uchida and N. Maruyama (Japan) 122

The amino-acid sequence of a lectin from conger eel, *Conger myriaster*, skin mucus
K. Muramoto and H. Kamiya (Japan) 129

Glutathione *S*-transferases of mouse liver: sex-related differences in the expression of various isozymes
S.S. Singhal, M. Saxena, H. Ahmad and Y.C. Awasthi (USA) 137

The effects of selective matrix degradation on the short-term compressive properties of adult human articular cartilage
D.L. Bader, G.E. Kempson, J. Egan, W. Gilbey and A.J. Barrett (UK) 147

Metallothionein biodegradation in rat hepatoma cells: a compartmental analysis aided ^{35}S-radiotracer study
O.M. Steinebach and B.T. Wolterbeek (Netherlands) 155

Structural studies of a phosphocholine substituted β-(1,3);(1,6) macrocyclic glucan from *Bradyrhizobium japonicum* USDA 110
D.B. Rolin, P.E. Pfeffer, S.F. Osman, B.S. Szwergold, F. Kappler, A.J. Benesi, D.M. Sheeley and V.N. Rheinhold (USA) 155

Tissue-specific effects of testosterone on *S*-adenosylmethionine formation and utilization in the mouse
M. Manteuffel-Cymborowska, W. Chmurzynska and B. Grzelakowska-Sztabert (Poland) 166

Incorporation and binding of estrogens into melanin: comparison of mushroom and mammalian tyrosinases
G.M. Jacobsohn and M.K. Jacobsohn (USA) 173

Metal-ion-directed site-specificity of hydroxyl radical detection
D. Gelvan, V. Moreno, W. Gassmann, J. Hegenauer and P. Saltman (USA) 183

Detection of radicals produced by reaction of hydroperoxides with rat liver microsomal fractions
T.L. Greenley and M.J. Davies (UK) 192

Volatile anesthetics-induced activation phenomena of α-chymotrypsin-catalyzed hydrolysis
T. Seto, S. Makimoto, T. Mashimo, I. Yoshiya and Y. Taniguchi (Japan) 204

Rapid Report

Involvement of microbodies in penicillin biosynthesis
W.H. Müller, R.A.L. Bovenberg, M.H. Groothuis, F. Kattevilder, E.B. Smaal, L.H.M. Van der Voort and A.J. Verkleij (Netherlands) 210

Regular Papers

Structural studies of a phosphocholine substituted β-(1,3);(1,6) macrocyclic glucan from *Bradyrhizobium japonicum* USDA 110
D.B. Rolin, P.E. Pfeffer, S.F. Osman, B.S. Szwergold, F. Kappler and A.J. Benesi (USA) 215

In vitro calcium deposition by rachitic rat matrix vesicles: nucleoside triphosphate supported calcium deposition
H.H.T. Hsu (USA) 227

Complete determination of disulfide bonds localized within the short consensus repeat units of Decay Accelerating Factor (CD55 antigen)
Y. Nakano, K. Sumida, N. Kikuta, N.-H. Miura, T. Tobe and M. Tomita (Japan) 235

Interaction of dipyridamole with micelles of lysophosphatidylcholine and with bovine serum albumin: fluorescence studies
M. Tabak and I.E. Borisevitch (Brazil, USSR) 241

Developmental changes in the amount and functional state of UDP-glucuronosyltransferase
A.J. Dannenberg, H.J. Worman and S. Scarlata (USA) 250

Iron-transferrin binding to isolated guinea pig enterocytes and the regional localisation of intestinal iron transfer during ontogeny
G. Chowrimootoo, M. Gillett, E.S. Debnam, S.K. Srai and O. Epstein (UK) 256

An enzyme immunoassay for the measurement of human monoamine oxidase B protein
K.B. Yeomanson and E.E. Billett (UK) 261

Characterization of a 67 kDa microtubule-binding protein in the pancreas from different species
L. Michalik, M.-T. Vanier and J.-F. Launay (France) 269

The metabolism of fructose in the bivascularly perfused rat liver
F. Suzuki-Kemmelmeier, E.L. Ishii-Iwamoto and A. Bracht (Brazil) 275

Growth related changes to functional parameters in the bovine lens
B.K. Pierscionek and R.C. Augusteyn (Australia) 283

Photodynamic degradation of vitamin E induced by psoralens
C. Costantini, M. D'Ischia, A. Napolitano, G. Misuraca and G. Prota (Italy) 291

Pyrroloquinoline quinone, a method for its isolation and identification by mass spectrometry
F. Buffoni, S. Cambi and G. Moneti (Italy) 297

Study of water and oil diffusion in rape seeds with sorption-desorption and nmr techniques
G. Fleischer and A. Werner (Germany) 305

The distribution of enzymes involved in purine metabolism in rat kidney
T. Pawelczyk, D. Bizon and S. Angielski (Poland) 309

In vivo potentiation of ricin toxicity by monensin delivered through liposomes
V.M. Vasandani, S. Madan and P.C. Ghosh (India) 315

Increased ε(γ-glutamyl)lysine crosslinking associated with increased protein synthesis in the inner layers of healing rat skin wounds
J.M. Bowness, S. Sewell and A.H. Tarr (Canada) 324

On the specificity of the D-galactose-binding lectin (PA-I) of *Pseudomonas aeruginosa* and its strong binding to hydrophobic derivatives of D-galactose and thiogalactose
N. Garber, U. Guempel, A. Belz, N. Gilboa-Garber and R.J. Doyle (Israel, USA) 331

Cumulative Contents, Vol. 1116 335

Author Index 338
